

STEP 1 · CHECK THE PRINT SCALE

Print this page at 100% (Actual size). Turn OFF “Fit to page” or “Scale to fit”.
Then lay any credit card, ID or library card inside the box below.
If the card matches the box exactly, your print is accurate. If not, reprint at 100%.

STEP 2 · MEASURE YOUR WRIST

- 1. Cut out the tape on the left along the dotted line.
- 2. Wrap it around your wrist just above the wrist bone, snug but not tight, with the START end under the tail.
- 3. Read the number where the tape overlaps. That is your wrist measurement.
- 4. Add room for the fit you like:
snug +1/4" · comfortable +3/8" · relaxed +1/2"
- 5. Order the closest length we offer.

WRIST + FIT = LENGTH TO ORDER

Between two lengths? Size up for an easier drape, down for a closer fit.
Bangles and cuffs are sized differently — a closed bangle matches your wrist measurement, and an open cuff sits 0.5" under it.
Still unsure? Reply to your order email and we will size it with you.
